REVIEW OF THE FINAL ACTION MEMORANDUM/REMOVAL ACTION WORK PLAN,
NON-TIME CRITICAL REMOVAL ACTION FOR IR SITE 73, WATER TOWER AREA,
NAVAL WEAPONS STATION, SEAL BEACH, DATED July 17, 2002

Dear Ms. Tamashiro:

The Department of Toxic Substances Control (DTSC) has reviewed the Final Action Memorandum/Removal Action Work Plan (AM/RAW) prepared by Bechtel National Inc., for the Department of Navy (DON), Southwest Division, Naval Facilities Engineering Command. The AM/RAW was prepared to document, for the Administrative Record, the DON's decision to undertake a non-time-critical removal action for lead contaminated soil at IR Site 73, the water tower area.

DTSC concurs with the final AM/RAW and has no significant comments. If you have any questions, please call Ms. Katherine Leibel at (714) 484-5446.

Sincerely,

John E. Scandura, Chief
Southern California Branch
Office of Military Facilities
Southern California Region
